

MUHAMMAD ABDULLAH

Cybersecurity Analyst | SOC & Incident Response | Secure Product Systems

LinkedIn | GitHub

muhammaddabddullah@outlook.com | +92 320 5610211

PROFESSIONAL SUMMARY

- **Security Operations:** Two years supporting North American enterprise clients across remote SOC, incident response, and IT operations.
- **Incident Response:** Investigate 100+ weekly alerts and supported containment during an active Akira ransomware engagement.
- **Broader Perspective:** Apply security thinking to product workflows, privacy boundaries, AI controls, accessibility, and accurate technical claims.

TECHNICAL SKILLS

- **Security Operations:** Elastic Security (SIEM), incident response, alert triage, Perception Point, IOC hunting, OSINT.
- **Threat Detection:** MITRE ATT&CK; mapping, TTP analysis, Sysmon, Osquery, anomaly detection, Cyber Kill Chain.
- **Infrastructure & Admin:** M365 Defender and Admin via Pax8, WatchGuard and SonicWall, VPNs, RDP/SSH forensics, VMware ESXi, Windows/Linux.
- **Data & Product:** Python, Pandas, SQL, Regex, GitLab, secure product design, technical documentation, UX and growth audits.

PROFESSIONAL EXPERIENCE

Security Operations Analyst - Ninpo Inc. (Ottawa, Canada - Remote)

Oct 2024 - Present

- **Incident Response:** Supported active Akira ransomware containment, including isolation of compromised domain controllers and ESXi hosts.
- **Threat Hunting & Triage:** Investigate 100+ weekly alerts in Elastic SIEM and classify phishing in Perception Point with 95%+ accuracy.
- **Detection & Hardening:** Helped tune SIEM rules, reduce false positives by 20%, and restore complete EDR telemetry coverage.
- **IT Operations:** Administer M365 tenants through Pax8, configure VPN and firewall updates, resolve tickets, and provision endpoints.

Product Growth & Security Strategy - AfterDesk (Freelance, Remote)

Jul 2026 - Aug 2026

- **Secure Product Design:** Defined evidence, deadline, resolution, recovery, and financial-outcome workflows for an after-sales case manager.
- **Growth & Trust:** Built the acquisition and pilot journey and documented privacy, tenant isolation, release risks, and ethical product claims across 37 linked notes.

Product Growth & Security Auditor - FitSmart AI (Freelance, Remote)

Jul 2026

- **Audit & Remediation:** Reviewed nine product areas spanning monetization, retention, accessibility, payment safety, quota transparency, and AI behavior.
- **Technical Assurance:** Defined release gates for data integrity and AI controls; validated 18/18 Worker tests and 37 audited icon controls.

GIS Intern - PCRWR (Islamabad, Pakistan)

Jul 2025 - Sep 2025

- **Data Automation:** Built Python workflows for spatial datasets and applied statistical analysis to identify anomalies in high-volume environmental data.

EDUCATION

B.S. in Remote Sensing & GIS - COMSATS University Islamabad

Expected Sep 2027

CERTIFICATIONS

Google Cybersecurity Professional Certificate | Blue Team Junior Analyst (BTL1) | IBM Cybersecurity Essentials | CompTIA Security+ (In Progress) | WatchGuard Identity Security Sales (Exp. 2026)
